

We are screening this film, made by Chris Packham and others, which shows the facts about the climate and nature crisis in our lifetime and beyond.

This is based on a national emergency briefing delivered last year to over 2,000 businesses and MPs. The summary film is about 50minutes long, followed by time for discussion, and is suitable for anyone over 16.

If you would like to see the film, please can you book a free ticket on Eventbrite (link below) and we will look forward to seeing you

at St John's Church on 6th July at 7.30pm.

Tea/coffee/ biscuits available.
